

Provisional Agenda

Green Engineering Workshop

with a focus on Process Intensification & Green Chemistry

October 27th, 2009

The Future is Green

8:30am – 8:45am	<i>Welcome and Introduction</i> Dr. A. Williamson
8.45am – 9.15am	<i>Sustainable Processing via process intensification</i> Dr. L. Weatherly
9:15am – 10:45am	<i>Green Engineering: The new industrial revolution</i> Dr. T. McHugh
10:45am – 10:15am	<i>Process Intensification: What, Why, How?</i> Dr. R. Jachuck
10:15am – 10:45am	Coffee Break
10:45am – 11.30am	<i>Developing a green chemical process</i> Dr. M. Walker
11:30am – 12:00pm	<i>Ionic Liquid for Reduction in CO₂ footprint</i> Dr. R. Baltus
12:00pm -12:30pm	<i>Pollution Prevention Using Non-leaching, Nontoxic Polymers as Anti-Biofouling Surface Coatings,</i> Prof. S. Krishnan
12:30pm – 1:15pm	Lunch
1:15pm – 2:00pm	<i>LAB Visit</i>
2:15pm – 2:45pm	<i>Group discussion</i>
2:45pm – 2:50pm	<i>Concluding Remarks</i>
